

YOJAKA (INDIA) PVT. LTD.

(Shipping, Marine, Mechanical, Civil & Dredging Contractors)

DOC No.EMM002 /Rev No.02

ENVIRONMENTAL POLICY.

We at Yojaka (India) Pvt. Ltd. shall meet and exceed all National and International Environmental Legislation. To follow the environmental legislation we shall try to minimize the environmental impact of our business activity of construction of civil and marine structures, dredging and lands reclamation, erosion and flood protection work, oil pollution control operation in ports, operation and maintenance of SPM, port and oil jetty facilities, pigging and pipeline, integrity management, underwater diving survey and videography, supply and operation of marine crafts for ports and off shore service.

In our strive to minimize the environmental impact we shall try to

- Reduce pollution, emissions and waste.
- Reduce the use of all raw materials (petroleum products), energy, water and supplies.
- Promote and maximize recycling and reuse opportunities.
- Reduce impacts of transportation.
- Use of biodegradable and minimise use of solvents.
- Reduce use of forest products.

For achieving this we are committed to regularly review our policy and monitor it and involve our employees and customer by:

- Raising awareness by training our employees.
- Assist our customers in making environmentally sensitive choices.
